 —Roy Raber has been in town a few days. For several months he has been operating a huge dredge in gold mining in the Snake River, and good success has attended the work. Mr. Raber leaves tomorrow for Glenns Ferry, Idaho, which is the headquarters of his mining enterprise.
 —The Citizens League held a special meeting Thursday evening. It was called to consider the question of taking action for securing, if possible, the location of the proposed cavalry post in the vicinity of Corvallis. A committee was appointed to take the matter in hand. The committee is, E. R. Bryson, A. J. Johnson, M. S. Woodcock and E. E. Wilson.
 —At a meeting Monday night, a committee was appointed by the Citizens League to confer with the council's committee relative to the franchise to be granted the Willamette Valley Railroad Company for running its lines through the streets of Corvallis. The committee is, Kline, Rose and Irvine.
 —The enrollment at noon yesterday at the college was 472. The total on the evening of the same day last year was 382. The increase is ninety. The attendance is so great that at the chapel exercise a large number of students must remain standing, or not attend. An enrollment of more than 600 during the year is practically assured. When President Gatch came to the college seven years ago, the total enrollment was 217.
 —Rev. and Mrs. Moon were made the objects of a surprise by the young people of the Epworth and Intermediate League on last Wednesday evening. A pleasant evening was spent and during the serving of refreshments Mr. W. C. Swann, on behalf of the league, presented to Mr. and Mrs. Moon a beautiful fruit dish, with a few well chosen words expressive of the appreciation of the young people for the kindly interest the pastor and his wife have taken in them, during the past four years. Conversation and music, with some ecstasies, were the features of the evening.
 —Football practice at the college is not progressing with that enthusiasm that enthusiasts admire. Up to yesterday some of the first team men of last year had not even appeared on the field, while among the new material as yet the big three men or two that were hoped for have not appeared. Two old men, Spagle and Bundy have not even returned to college, while another, Copper graduated in June, and will be at O. A. C. no more. Perhaps a revival of enthusiasm, work and men will come in time to put the team where it belongs.
 —There is a good prospect for a game of football on O. A. C. field next Saturday. John Gault has written the local management, proposing an alumni game in which old gridiron warriors will give this year's team its first scrimmage work. Among the old players mentioned as likely to participate are Fred Edwards, McBride, Gault, Bodine, Thurston, and a dozen other players of past renown at the college and in the state. Captain Pilkington has given Saturday, October first, for a date, all other dates in the season's schedule having been promised other teams. It is almost certain that the game will be played next Saturday, and it is equally certain that the reappearance of the old players will draw wide attention.

 —It was a great day, Thursday was. There had long been thirst in the soul, hunger in the heart and hankering in the bosom of the Oregonian. The webs were parched, cracked and dry from the long summer's drought; and so Thursday was a happy day—it had rained.
 —W. E. Paul, an old-time Corvallisite who has been for ten years an absentee, arrived Wednesday. Mr. Paul left Corvallis for New Hampshire nearly 10 years ago, and after nine years there, he returned to the Coast stopping first in California and then in Portland, where he has been for five months.

 —Bishop H. C. Morrison of the M. E. church, South, who is on his annual tour of the northwestern conferences, conducted devotional exercises in the OAC chapel Wednesday morning. His scripture lesson was most appropriate, appalling to the young, and his prayer fervent and pointed. He also addressed in a brief talk the faculty and student body. The spacious hall was packed with old and new students. He spoke of the essentials necessary to true man and womanhood, the grave questions that now agitate the public, affecting alike, individual and national character, either perpetuating governments and home life and happiness, or sinking all into ruin, and urged each and all to prepare himself to act well his part in the great drama of events that are in the near future for solution.

News to the Afflicted.

AN ANNOUNCEMENT THAT WILL INTEREST MANY.

Dr. Darrin, the Eminent Specialist, Has Just Returned From Europe, and Will Visit Corvallis Sept. 28th to October 30th.

While adverse to drawing the attention of our readers to any advertisement, which partakes of a medical character, we feel more justified in overriding this objection with respect to the announcement of the visit of Dr. Darrin.

This far famed physician, lately from Paris, who has achieved such a great reputation throughout the coast and the northwest the past 16 years, has been prevailed upon, by urgent request of many in this vicinity, to visit Corvallis again, as they could not afford to be absent and business to consult him at his offices at Portland. The doctor has at last consented to visit this city to accommodate the sick and the afflicted, and his office is at the new hotel, Hotel Corvallis.

Those wishing to see the doctor will find it to their advantage to consult him while here, and during the first part of his stay, as many require more than one treatment by electricity.

He comes laden with testimonials from the whole northwest, and the authentic reports of some of his cures seem nothing short of miraculous. So many thousands are already acquainted with his mode of treatment, it seems unnecessary to state that he uses little medicine in the majority of cases and perfects his cures by the wonderful powers of electricity.

Following are a few of his recent cures:

F. H. Hobn, 247 Commercial street, Salem, catarrh, cured.
 J. W. Pate, Jefferson, Ore., rheumatism and diabetes.
 Reuben Lee and wife, Turner, Or., sciatic rheumatism and cough, restored.
 Mrs. C. Putney, Salem, varicose ulcers on both limbs.
 B. Baxter, Ferry street, Salem, tumor cured.
 Miss Irene Ashford, Salem, Or., discharging ear, cured.
 B. F. King Gervais, Or., discharging ear, cured.
 J. S. Hesten, Salem, liver complaint and dyspepsia, cured.
 Office hours 10 to 5; evenings 7 to 8. The worthy poor treated free from 10 to 11, daily, except medicines. Those able to pay at the rate of \$5 a week, or in that proportion of time the case may require.

New York, Sept. 20.—The tenants in an office building in the neighborhood of the city hall yesterday observed a man's arm and one leg hanging over a window ledge on the 18th story of the American Trust Society building.

Investigation showed that the owner was asleep on a narrow ledge and was supporting his head on his left hand.

The janitor of the building was notified, and he found Frank Bradenburg, a window cleaner, fast asleep on the ledge. He promptly dragged him from his perilous position. A year ago Bradenburg went to sleep in a similar place on the 20th floor of the Flatiron building.

In explanation he says that great height does not make him dizzy, but sleep. He says he knows no fear when at great height, and that on many occasions he has taken a nap, when he felt like it, without incident or accident.

When dragged into the room, where he awakened to find himself surrounded by a room and hallway packed with shuddering spectators, Bradenburg sleepily rubbed his eyes and said, "What's the row about?"

Rauo, Nev., Sept. 20.—John Stafford, an employe of the Stanford Mining company of Bodie, was literally roasted to death yesterday in the interior of a big pipe line. Though living when rescued he died sometime afterward in terrible agony.

Stafford was engaged in painting the interior of a big pipe line and was using paraffine paint. In some manner the inflammable fluid caught fire. The interior of the pipe was soon a mass of flames. His fellow employes were attracted by the smoke and the young man's cries. It was necessary to burst the pipe before he could be rescued.
